Refraction Service and Fees

A refraction is an important part of your complete eye examination. It is a vital part that helps Dr. Alabata determine the best possible visual acuity or central function of your eyes. It is essential medical information for Dr. Alabata to have as he completes the proper assessment of your eyes. *It helps determine if you have a visual impairment that may need to be addressed in a timely fashion.* This is important even if you do not desire an eyeglass prescription.

A refraction is **NOT** a covered service by Medicare or most medical insurance plans. These plans consider a refraction a “vision” service and not a “medical” service.

Our office fee for a refraction is \$25.00. This fee is collected at the time of service in addition to any copayment or deductible your plan may require. Your copay or deductible is for the medical portion of your exam and is separate from and not included in the refraction fee. Medicare does not cover a refraction and most insurance companies follow Medicare’s policies as a guideline.

The technician will advise the patient at the time of the appointment.

PATIENT FINANCIAL RESPONSIBILITY POLICY

Thank you for choosing **Alabata Eye Center LLC**. We are committed to the treatment, preservation and advancement of your Ophthalmic care. Please understand that payment of your bill is considered part of Ophthalmic care. The following is a statement of our **Policy**, which we require that you read and sign before being seen by one of our physicians. **You are responsible for letting our office know of any changes in your demographics and insurance plans.**

Your Responsibility:

You are financially responsible for the services we provide to you. As such, we require that the patient or legal guardian to either pay or arrange for payment at time of service. As a courtesy to you, we will file a claim to your insurance plan(s). Please remember that your insurance benefits are a contract between you and your insurance carrier. You are required to make your co-payment and/ or pay any deductible and coinsurance at the time of your service. If there is a discrepancy with payment of our claims, we may look to you for assistance in expediting our claims in a timely manner. If your insurance company does not pay the practice within 90 days, you will be responsible for payment in full. If the practice later receives payment from your insurance, we will refund any overpayment to you. If you provide incorrect or false information, you will be responsible for any unpaid claims and /or all charges for services provided.

Non-covered Service Condition:

Since we are a specialty practice, some procedures that may be performed in your treatment plan could be deemed non-covered by your insurance plan. In the event that these services are determined non-covered, it is your responsibility to pay for the services rendered. Our patient financial counselors are available to review these out-of-pocket expenses with you prior to services being rendered. If we do not participate with your insurance carrier, you will be responsible for paying your charges at the time of service.

Prior Balance:

Patients with a balance from prior dates of service will be required to pay that balance in full before being seen by our physician. If the prior balance can not be paid in full, you will be asked to speak with our financial counselors to make payment arrangements based on our payment policy prior to being seen by our physician.

Self-pay Patients:

Patients who have no insurance or who elect to pay fee-for-service, will be extended a discount from charges. You will be expected to pay for the balance in full at time of service.

Returned Checks:

We will assess a fee on all checks that have been returned by our bank for "non-sufficient funds" per applicable state laws. Payment of this fee must be made prior to your next appointment.

Collection Agency:

Prompt payment of patient's balances is expected per the terms of this agreement. We will use an outside collection agency for outstanding patient's balances as we deem necessary. Failure to resolve outstanding balances may result in discharge from care by our physician. Prior balances must be resolved before the practice will provide new services.

Restructuring:

As of June 18, 2020 we have restructured our clinic in order to properly care for our current as well as upcoming patients in need of specialist and surgical care.
